

Dr Shimmins and Partners

Dartford East Health Centre

Privacy Notice

How we use your personal information

This Privacy Notice explains why the GP practice collects information about you and how that information may be used.

The health care professionals who provide you with care maintain records about your health and any treatment or care you have received previously (e.g. Out-of-hours, GP Surgery, Walk-in clinic, Hospital etc.). These records help to provide you with the best possible healthcare.

NHS health records may be electronic, on paper or a mixture of both, and we use a combination of working practices and technology to ensure that your information is kept confidential and secure. Records which Dr Shimmins and Partners hold about you may include the following information;

- Details about you, such as your address, carer, legal representative, emergency contact details
- Any contact the surgery has had with you e.g. appointments, clinic visits, home visits, etc.
- Notes and reports about your health
- Details about your treatment and care
- Results of investigations such as laboratory tests, x-rays etc
- Relevant information from other health professionals, relatives or those who care for you

To ensure you receive the best possible care, your records are used to facilitate the care you receive. Information held about you may be used to help protect the health of the public and to help us manage the NHS. Information may be used within the GP practice for clinical audit to monitor the quality of the service provided.

Some of this information will be held centrally and used for statistical purposes. Where we do this, we take strict measures to ensure that individual patients cannot be identified. Sometimes your information may be requested to be used for research purposes – the surgery will always gain your consent before releasing the information for this purpose.

Risk Stratification

Risk stratification data tools are increasingly being used in the NHS to help determine a person's risk of suffering a particular condition, preventing an unplanned or (re)admission and identifying a need for preventive intervention. Information about you is collected from a number of sources including NHS Trusts and from this GP Practice. A risk score is then arrived at through an analysis of your de-identified information using software managed by the NHS DGSCCG IT Department, and is only provided back to your GP as data controller in an identifiable form. Risk stratification enables your GP to focus on preventing ill health and not just the treatment of sickness. If necessary your GP may be able to offer you additional services. Please note that you have the right to opt out of your data being used in this way.

Medicines Management

The Practice may conduct Medicines Management Reviews of medications prescribed to its patients. This service performs a review of prescribed medications to ensure patients receive the most appropriate, up to date and cost effective treatments. This service is provided to Dr Shimmins and Partners by DGSCCG.

How do we maintain the confidentiality of your records?

We are committed to protecting your privacy and will only use information collected lawfully in accordance with:

- Data Protection Act 1998
- The General Data Protection Regulations 2018
- Human Rights Act 1998
- Common Law Duty of Confidentiality
- Health and Social Care Act 2012
- NHS Codes of Confidentiality, Information Security and Records Management

- Information: To Share or Not to Share Review

Every member of staff who works for an NHS organisation has a legal obligation to keep information about you confidential and we will only ever use or pass on information about you if others involved in your care have a genuine need for it. We will not disclose your information to any third party without your permission unless there are exceptional circumstances (i.e. life or death situations), where the law requires information to be passed on and / or in accordance with the new information sharing principle following Dame Fiona Caldecott's information sharing review (Information to share or not to share) where "The duty to share information can be as important as the duty to protect patient confidentiality." This means that health and social care professionals should have the confidence to share information in the best interests of their patients within the framework set out by the Caldecott principles. They should be supported by the policies of their employers, regulators and professional bodies.

Who are our partner organisations?

We may also have to share your information, subject to strict agreements on how it will be used, with the following organisations;

- The Health Board / NHS Trusts
- Specialist Trusts
- Health & Social Care Partnership
- NHS Education for Scotland
- Independent Contractors such as dentists, opticians, pharmacists
- Private Sector Providers
- Voluntary Sector Providers
- Ambulance Trusts
- Clinical Commissioning Groups
- Social Care Services
- Local Authorities
- Education Services
- Fire and Rescue Services
- Police

Please note that this list is not exhaustive and we may also use external companies to process personal information, such as for archiving purposes. These companies are bound by contractual agreements to ensure information is kept confidential and secure.

You will be informed who your data will be shared with and in some cases asked for explicit consent for this happen when this is required.

Access to personal information

Even if we already hold your personal data, you still have various rights in relation to it. To get in touch about these, please contact us. We will seek to deal with your request without undue delay, and in any event in accordance with the requirements of any applicable laws. Please note that we may keep a record of your communications to help us resolve any issues which you raise.

Right to object: If we are using your data because we deem it necessary for our legitimate interests to do so, and you do not agree, you have the right to object. We will respond to your request within 30 days (although we may be allowed to extend this period in certain cases). Generally, we will only disagree with you if certain limited conditions apply.

Right to withdraw consent: Where we have obtained your consent to process your personal data for certain activities (for example for a research project), or consent to market to you, you may withdraw your consent at any time.

Right to erasure: In certain situations (for example, where we have processed your data unlawfully), you have the right to request us to "erase" your personal data. We will respond to your request within 30 days (although we may be allowed to extend this period in certain cases) and will only disagree with you if certain limited conditions apply. If we do agree to your request, we will delete your data but will generally assume that you would prefer us to keep a note of your name on our register of individuals who would prefer not to be contacted. That way, we will

minimise the chances of you being contacted in the future where your data are collected in unconnected circumstances. If you would prefer us not to do this, you are free to say so.

Right of data portability: If you wish, you have the right to transfer your data from us to another data controller. We will help with this with a GP to GP data transfer and transfer of your hard copy notes

Change of Details

It is important that you tell the person treating you if any of your details such as your name or address have changed or if any of your details such as date of birth is incorrect in order for this to be amended. You have a responsibility to inform us of any changes so our records are accurate and up to date for you.

Who is the Data Protection Officer?

The Data Controller is Christine Wenham, Practice Manager, of Dr Shimmins and Partners, who is responsible for keeping your information secure and confidential.

Complaints

Should you have any concerns about how your information is managed at Dr Shimmins and Partners, please contact the GP Practice Manager/ Data Protection Officer as above.

If you are still unhappy following a review by the Practice you can then complain to the Information Commissioners Office (ICO) via their website www.ico.org.uk

If you are happy for your data to be extracted and used for the purposes described in this privacy notice then you do not need to do anything. If you have any concerns about how your data is shared then please contact the practice.

General Practice Transparency Notice for GPES Data for Pandemic Planning and Research (COVID-19)

This practice is supporting vital coronavirus (COVID-19) planning and research by sharing your data with NHS Digital.

The health and social care system is facing significant pressures due to the coronavirus (COVID-19) outbreak. Health and care information is essential to deliver care to individuals, to support health, social care and other public services and to protect public health. Information will also be vital in researching, monitoring, tracking and managing the coronavirus outbreak. In the current emergency it has become even more important to share health and care information across relevant organisations. This practice is supporting vital coronavirus planning and research by sharing your data with NHS Digital, the national safe haven for health and social care data in England.

Our legal basis for sharing data with NHS Digital

NHS Digital has been legally directed to collect and analyse patient data from all GP practices in England to support the coronavirus response for the duration of the outbreak. NHS Digital will become the controller under the General Data Protection Regulation 2016 (GDPR) of the personal data collected and analysed jointly with the Secretary of State for Health and Social Care, who has directed NHS Digital to collect and analyse this data under the [COVID-19 Public Health Directions 2020](#) (COVID-19 Direction).

All GP practices in England are legally required to share data with NHS Digital for this purpose under the Health and Social Care Act 2012 (2012 Act). More information about this requirement is contained in the [data provision notice issued by NHS Digital to GP practices](#).

Under GDPR our legal basis for sharing this personal data with NHS Digital is Article 6(1)(c) - legal obligation. Our legal basis for sharing personal data relating to health, is Article 9(2)(g) – substantial public interest, for the purposes of NHS Digital exercising its statutory functions under the COVID-19 Direction.

The type of personal data we are sharing with NHS Digital

The data being shared with NHS Digital will include information about patients who are currently registered with a GP practice or who have a date of death on or after 1 November 2019 whose record contains coded information relevant to coronavirus planning and research. The data contains NHS Number, postcode, address, surname, forename, sex, ethnicity, date of birth and date of death for those patients. It will also include coded health data which is held in your GP record such as details of:

- diagnoses and findings

- medications and other prescribed items
- investigations, tests and results
- treatments and outcomes
- vaccinations and immunisations

How NHS Digital will use and share your data

NHS Digital will analyse the data they collect and securely and lawfully share data with other appropriate organisations, including health and care organisations, bodies engaged in disease surveillance and research organisations for coronavirus response purposes only. These purposes include protecting public health, planning and providing health, social care and public services, identifying coronavirus trends and risks to public health, monitoring and managing the outbreak and carrying out of vital coronavirus research and clinical trials. The British Medical Association, the Royal College of General Practitioners and the National Data Guardian are all supportive of this initiative.

NHS Digital has various legal powers to share data for purposes relating to the coronavirus response. It is also required to share data in certain circumstances set out in the COVID-19 Direction and to share [confidential patient information to support the response under a legal notice](#) issued to it by the Secretary of State under the Health Service (Control of Patient Information) Regulations 2002 (COPI Regulations).

[Legal notices](#) under the COPI Regulations have also been issued to other health and social care organisations requiring those organisations to process and share confidential patient information to respond to the coronavirus outbreak. Any information used or shared during the outbreak under these legal notices or the COPI Regulations will be limited to the period of the outbreak unless there is another legal basis for organisations to continue to use the information.

Data which is shared by NHS Digital will be subject to robust rules relating to privacy, security and confidentiality and only the minimum amount of data necessary to achieve the coronavirus purpose will be shared. Organisations using your data will also need to have a clear legal basis to do so and will enter into a data sharing agreement with NHS Digital. Information about the data that NHS Digital shares, including who with and for what purpose will be published in the NHS Digital [data release register](#).

For more information about how NHS Digital will use your data please see the [NHS Digital Transparency Notice for GP Data for Pandemic Planning and Research \(COVID-19\)](#).

National Data Opt-Out

The application of the [National Data Opt-Out](#) to information shared by NHS Digital will be considered on a case by case basis and may or may not apply depending on the specific purposes for which the data is to be used. This is because during this period of emergency, the National Data Opt-Out will not generally apply where data is used to support the coronavirus outbreak, due to the public interest and legal requirements to share information.

Your rights over your personal data

To read more about the health and care information NHS Digital collects, its legal basis for collecting this information and what choices and rights you have in relation to the processing by NHS Digital of your personal data, see:

- the [NHS Digital GPES Data for Pandemic Planning and Research \(COVID-19\) Transparency Notice](#)
- the [NHS Digital Coronavirus \(COVID-19\) Response Transparency Notice](#)
- the [NHS Digital General Transparency Notice](#)
- [how NHS Digital looks after your health and care information](#)

ACR project for patients with diabetes (and/or other conditions)

The data is being processed for the purpose of delivery of a programme, sponsored by NHS Digital, to monitor urine for indications of chronic kidney disease (CKD) which is recommended to be undertaken annually for patients at risk of chronic kidney disease e.g., patients living with diabetes. The programme enables patients to test their kidney function from home. We will share your contact details with Healthy.io to enable them to contact you and send you a test kit. This will help identify patients at risk of kidney disease and help us agree any early interventions that can be put in place for the benefit of your care. Healthy.io will only use your data for the purposes of delivering their service to you. If you do not wish to receive a home test kit from Healthy.io we will continue to manage your care within the Practice. Healthy.io are required to hold data we send them in line with retention periods outlined in the Records Management code of Practice for Health and Social Care. Further information about this is available at: <https://bit.ly/3xpSq5q>.
